Art Unit: 1714

The amendment received 17 October 2005 has been made of record. Claims 1-3, 6-8, and 10-30 are pending.

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1-7, 14-22 and 29 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The examiner cannot find support for the limitation in claim 1 of "homogeneous distribution".

Claim 30 is rejected under 35 U.S.C. 103(a) as being unpatentable over Linde et al '026 in view of Linde et al '988 and Walsh.

This rejection is maintained for reasons of record. Applicants' arguments in traversal of this rejection appear to focus on differences in properties between beaded blacks prepared with one of wax or oil and beaded blacks prepared from both wax and oil. Applicants' have not presented arguments demonstrating differences in properties flowing from the use of synthetic oils as compared to non-synthetic oils.

Claims 8, 10-13 and 23-28 are allowed.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Edward J. Cain whose telephone number is (571) 272-1118. The examiner can normally be reached on M-F from 10:00 to 6:00.
